RIM CHOUCHENE

INDUSTRIAL & MECHANICAL ENGINEER
Speciality: Complex Systems Engineering & Management

Phone: +216 21 926 854 | Portfolio: chouchener.github.io/portfolio/
Mail : rim.chouchenne1@gmail.com| LinkedIn : www.linkedin.com/in/rim-chouchene

SKILLS

Software Tools:
html5| CSS| JavaScript | Visual Basic
Adobe photoshop

CAD Software:
Catia V5 | SolidWorks

Operational Excellence:
FMECA| PLM| Lean manufacturing|
RID Methodology®| Agile Method

Universal & Reliable Design
UX Design - Content Creation

LANGUAGES

French:	Excellent
English:	Excellent
Germany:	Basic
Arabic:	Native

ACTIVITES & ASSOCIATIVE LIFE

11.2016
Winner Team of Silver Awards
By Silver Valley at Ecole Nationale Supérieure d'arts et Métiers - Paris
24 hours to present an innovative project (startup) + its business model

2014-2016
Communication Manager at ENIM-Aerospace Club, Monastir
Moderator of 2 national events connecting aerospace engineering & business

05.2016
Model Aircraft Competition 'AERODAY INSAT'
Elaboration of technical specifications
Production of a functional aircraft model

Théâtre [Staging & Scripting]	Hosting a regional **Radio show** 2004.2010	**Story-boarding**

EDUCATION

Ecole Centrale Supélec (Centrale Paris) - France
National Engineering School of Monastir (ENIM) - Tunisia
2018
Double graduation : Master 2 in Complex systems Engineering & Management (Industrial Engineering at Centrale Supelec) & Mechanical Engineering at ENIM

Preparatory Institute for Engineering Studies EL MANAR, Tunis - Tunisia
2014
Technological Preparatory Cycle to Engineering Studies (PT)

Pioneer High School of Sousse (LPS) - Tunisia
2012
Technological Baccalaureate : Whith Highest Honours

WORK EXPERIENCE

Mission : R&D Engineer - Tunisia
01.2021 – 10.2021 : **Altea-packaging (Flexible Packaging Industry; T/O = 37 M€)**
- Improved the business processes related to the existing ERP Sage X3 :
  - Evaluated the performance of using SageX3 & the techno-social environment of the involved departments.
  - Capitalized the captured knowledge : standardized the database integrated into the ERP + coded (with VBA) a calculation interface for the input data
- Treated technical complaints (failure analysis; executed lab tests; negotiated with English-speaking suppliers and co-implemented corrective actions)

Mission : Coordinator of freelance projects
06.2019 - 12.2020 : **Freelance Portfolio: chouchener.github.io/portfolio/**
- Retrieved and analyzed customers' needs + elaborated deliverables
- Achieved 3 UX projects (Commercial Showcase Site for VENTI CAFE client, Academic Platform, & Storytelling Interface)

Mission : Vice-Coordinator (Co-founder of IIDebate Bekalta - Volunteering)
08.2018 - 06.2019 : **The International Institut of Debate (IIDebate) - Tunisia**
- Conducted training/ integration workshops (logistics planning; candidates' profiling; preparation of presentations; animation activities; ice-breaking; team building)
- Managed the project : *Simulating elections* in a social entrepreneurship competition

Mission : Leader of the project "Problems' depiction based on ontologies"
05.2017 - 12.2017 : **Industrial Engineering Laboratory Centrale Supélec - France**
- Refined & tested the pain ontology introduced by B. Yannou & A. Dong
- Mapped persona journey, studied existing solutions , visualized users' Pain-Points
- Evaluated data collected from the experiment of testing the ontology (pilot-tests, use-cases, training data, generation of KPI dashboard, RDF, ANOVA analysis)
